NEW TECHNOLOGY DESIGNED INTO THE MINI-DUCTOR II +

The MINI-DUCTOR® II + is the #1 professionals choice hand held flameless torch! Induction Innovations engineered new technology and redesigned their 230V international version of the Mini-Ductor II! The MINI-DUCTOR II + integrates these new advances in technology for increased energy efficiency and ease of use. Leverage the power of technology with invisible heat to quickly release corroded or frozen hardware and other metallic components from corrosion and thread lock compounds. All ***WITHOUT*** the collateral damage associated with torches! Heats nuts red hot in seconds!
